

How we can help with your fitted furniture

Thinking about bespoke fitted joinery like wardrobes, but don't know where to start?

Although we don't provide technical drawings required by your joiner, as part of your full design package, we will suggest the perfect style and finish to work with your design scheme.

We can also mark out the ideal position of any bespoke furniture on the floor plan included in your design package.

The budget you will need to allow for bespoke joinery elements in your home will be determined by many factors including your location, the amount of bespoke joinery required, the overall design style and standard of finish.

Your chosen joinery contractor will be able to guide you on costs.
